PREPARING FOR 5G - FIRST IN THE CARIBBEAN

DRIVERS OF INNOVATION

WE ARE THE FIRST IN THE CARIBBEAN
TO TEST PRE 5G

- 5G is the biggest technological evolution since the advent of the Internet
- 5G technology will offer nearly four times the capacity, lower latency, fewer dropped calls and speeds over 800 megabits per second faster downloads in seconds rather than minutes; supporting driverless cars and the Internet-of-Things and even smart appliances for the home
- It will transform our society and strengthen our reputation as pioneers in next-generation technology

WELCOME THE PRIME MINISTER OF ANTIGUA AND BARBUDA, THE HONOURABLE GASTON BROWNE

BUILDING PARTNERSHIPS
