PRESS RELEASE

SMART LAUNCHES THE FIRST 4G LTE NETWORK IN BELIZE

Tuesday, 22 December, 2015.....Smart is pleased to announce that 4G LTE is here!

We are happy to officially launch our 4G LTE Network starting with the first phase in Belize City earlier today. Both our showrooms on the Philip Goldson Highway and our downtown showroom on Albert Street are now offering LTE-capable phones and new and affordable Zoom + LTE packages. Customers are encouraged to stop by to make purchases and to get more information on this premier 4G technology which will provide internet speeds never experienced before in Belize.

Over the next few days, the other districts, San Pedro and Caye Caulker will join the Belize District in going 4G LTE and experience 4G internet speeds. Existing and potential customers will be updated on when 4G LTE (Zoom+) will be available in their district.

With this 4G LTE launch Smart demonstrates that it continues to be the leading and most innovative telecommunications company in Belize. We thank all our customers for their loyalty and confidence and we invite all Belizeans to join the fastest network in Belize!

Smart continues bringing people together!
