

SmartTerm

Innovation in Digital Education

What is Digital Education

Learning facilitated by technology that gives learners some element of control over time, place, path and/or pace.

Types of Learning

FORMAL

SOCIAL

What's Wrong?

1

LACK of stable infrastructure that will foster sustainable growth of Digital Education

2

LACK of Engineers and Data Scientists in vetting of solutions

Goal of Education is to create the citizenry and human resources necessary to achieve national development goals

- Ayodele Pompey, CXC
